Headlight Restoration Kit

The T-Cut Headlight Restoration Kit is a specially designed compound and sealant that works together to rejuvenate headlights back to a "like new" crystal clear finish.

Created to improve headlight clarity and light visibility by removing abrasions and haziness from uncoated clear, plastic headlights.

The compound plus sealant combination leaves the treated area brilliantly clear, polished and protected.

This kit does not require the use of drills or tools and is an ideal solution for a do-it-yourself remedy that is effective and easy to use.
